**JeffC:** That is the link for live audio chat about his presentation... no password needed... just install the plugin, type in your name and go.

**JeffC:** You already have the plugin installed... it's the same software as realteachers.org

**BobZw:** I hear him speaking so I guess I'm in

**JeffC:** If you want to use realteachers.org for part of your presentation (guessing you will)... several participants have had trouble getting into Robin's. Myself... I can't connect at all due to a problem with my computer.

**BobZw:** Robin's link seems to be a pre-recorded presentation
