SusanR: a few housekeeping details this evening!!!

SusanR: before we start

SusanR: just a reminder about viewing urls or links and the conversation here

BJB2 listens to Sue

JenW listens intently too

SusanR: to make the chat area larger, go to the Actions menu (just above the chat area) and click on Detach

CourtneyB: much better!

SusanR: AND to make the text easier to read, go back to Actions and select larger text (you can do this a couple of times)

RachelWa: yes

CourtneyB: cool

SusanR: hold down the Ctrl key or right-click on external links

DairaV: this is a big help

KellyAS: okay that's so much better

SusanR: AND NOW FOR OUR SPECIAL GUEST

SusanR: Jen Wagner

JenW bows

SusanR: Let me say a few words about Jennifer Wagner.

SusanR: One of her many passions is online projects for students.

SusanR: ..and teacher I guess

SusanR: I'm delighted and excited to have Jen Wagner with us again giving us an update to her online project based on the film Charlotte's Web.

SusanR: Jen puts it together for us with links, activities, lesson ideas, resources and collaborative ideas to readily integrate into your curriculum.

SusanR: Again the topic tonight is Reading Strategies featuring Charlotte's Web and starring Jen Wagner.

RachelWa: I am excited!

JenW: Hello everyone

JenW: We are going to be covering a lot of ground tonight

SusanR: Let's give a loud round of applause

JenW: so if you wish to chat -- please don't do it in this chat room --

SusanR: btw we will find out how your students can "Break a World Reading Record With Charlotte's Web."

JenW: Yes -- they will

JenW: Okay -- ready -- let's go

JenW: As you know -- Walden Media is releasing Charlotte's Web on December 15th

JenW: it will be a lot like Babe --

CynthiaRT: Do you think that this will work with my very non reading very violent MRP/EBD room?

JenW: meaning both real people -- Dakota Fanning

KeyanaJ: not a cartoon?

EllenA: You mean actors and real animals?

JenW: and also animatronics -- like Charlotte

JenW: played by Julia Roberts

JenW: and Oprah, Robert Redford,

KeyanaJ: wow

JenW: hmmm -- lots of well knowns

JenW: to bring in both kids and adults

JenW: so -- let's first go to the Walden site

RachelWa: I can't wait to see it

DairaV: how exciting

SusanR: What a cast..and the soundtrack is awesome

JenW: PLEASE come back to me after viewing the site

CourtneyB: ok

JenW: and YES, the soundtrack is AWESOME

JenW: here is a link to their site

JenW: http://www.walden.com/web/teach/charlotte#

SusanR: Sarah McLachlan sings her hit song as well

JenW: the TEACHING tools part

JenW: anyway -- that is their teacher resources site

JenW: lots of ideas -- printouts -- worksheets -- etc

JenW: not by grade level though

CourtneyB: wow!

JenW: I will give you a bit to bookmark the site -- and look around

EllenA: Is it suitable for kindergarten?

JenW: OH YES

KellyAS: what about the secondary level?

RachelWa: Thank you

KeyanaJ: I remember Babe Pig In The City

RochelleA: that's a sweet website

JenW: it tells you about making the movie, information about inside the book, as well as teaching tools

JenW: Is anyone here in a FAITH based school???

JenW: this site

JenW: http://www.charlotteswebresources.com/

JenW: brings a spiritual aspect to the book

DairaV: no

MichelleVT: no

KeyanaJ: no

CaitlinO: I'm at a faith based college.. not sure if I'm going to be at a faith based elem. school or not

JenW: lots of friendship -- etc

JenW: anyway - you can view it later -- it has great stuff as well

JenW: AND a great BULLETIN board ideas

JenW: okay --

JenW: now - LOL -- drumroll

KeyanaJ: I really like this site

JenW: I am putting together a project for teachers about the book

JenW: I will take you to the first page -- and then we can walk through it

AndriaP: that is great!

KeyanaJ: ok

HuongT: good

EllenA: thanks

DairaV: great

JenW: http://www.technospudprojects.com/Projects/webproject/cwhome.htm

CourtneyB: cool

KellyAS: good

SusanR listens attentively to Jen

JenW: that will take you to the home page

MichelleVT: awesome

RachelWa: yeah

JenW: from there -- could you go to the information page and let me know when you are there

CynthiaRT: still don't know where you are but it sounds great. ..

CaitlinO: I like the front page design, good work!

JenW: thanks -- I created the graphic and LOVED it

AndriaP: Cute!!

JenW: and I am humble

JenW: LOL -- okay

JenW: this project is a bit different

JenW: because YOU the teacher and YOUR class are going to make your own project

JenW: after you read the book --

JenW: or discuss the book or movie

JenW: and remember there is a cartoon movie with Debbie Reynolds playing Charlotte

DairaV: neat

JenW: and the Brady Bunch kids sing the songs

RachelWa: I can't wait

JenW: your class will create some way of showing off what they learned

JenW: via a blog

JenW: or a wiki

JenW: or a powerpoint

CourtneyB: wiki?

JenW: or a photosharing website

MichelleVT: wiki?

KellyAS: wiki?

RachelWa: What is a photosharing website?

JenW: LOL -- lets get back to wiki in just a moment

JenW: OKAY -- one at a time

JenW: A blog -- this is where they could discuss the book

JenW: a site such as edublogger or blogmeister would host the blog

CaitlinO: I like the idea of an online discussion

JenW: you could ask your students questions and they can answer them

JenW: or they could ask each other questions

RochelleA: blogger is easy to use too

KellyAS: blogging is a great alternate to journal

JenW: Okay -- WIKIs

JenW: wiki's are like blogs -- but pages instead of journals

JenW: let me show you a wiki

DairaV: great...this is kind of like a journal entry

KellyAS: ooooohhhh okay

CynthiaRT: yikes this is the fastest discussion I've ever seen. . .

RochelleA: but u can change the info on wiki's right

JenW: http://theincrediblejourney.wikispaces.com/

JenW: more than a journal -

CourtneyB: can't look away for one sec!

JenW: you read by page rather than by date

JenW: So - to use a wiki

CaitlinO: Interesting, I've never seen anything like that before

AndriaP: wow..that is really neat!

DairaV: neat

JenW: a teacher might wish to create character pages

MichelleVT: that sounds cool

RachelWa: hum

JenW: such as Charlotte, Wilbur, Templeton, etc

KellyAS: sounds good

GlyndiA: I've never heard of this before

JenW: and have students post data

GlyndiA: very interesting

RachelWa: interesting!

JenW: wikispaces.com will host your site there

JoleenF: How neat!

JenW: for free

CourtneyB: me neither

CynthiaRT: I can't see any of what you are talking about but I will try from the transcript.

EllenA: very cool

JenW: OOOO -- I am glad to show you about WIKIs

KellyAS: FREE....YES!

DairaV: free is my favorite word, especially right now

SusanR . o O (Would you care to come back again and do a session on WIKIS, Jen)

CourtneyB: I LOVE learning new tools to use!

JenW: hang on -- let me grab a link

JenW: Yes

JenW: http://www.technospud.com/wikiideas.htm

JenW: that tells you all about WIKIS

BJB2: there are two upcoming wiki discussions, Sue...check the calendar

JenW: and there is a powerpoint on how to set it up

MichelleVT: thank you

SusanR checks the calendar

JenW: Okay -- so wikis

EmilyJ: thanks

JenW: and also PowerPoint

CourtneyB: thanks that's a new favorite for me to use now!

JenW: and you all know PowerPoint

JenW: ???

EmilyJ: yes

JenW: good --

DairaV: more or less

NormaSp: I do..

AndriaP: yes!

CaitlinO: of course

JoleenF: yes

GlyndiA: absolutely

MichelleVT: yes, I'm familiar

CourtneyB: of course

JenW: they also could create a PHOTO SHARE

CourtneyB: hee hee

KeyanaJ: yea

JenW: such as like at bubbleshare.com or flickr.com

JenW: again - a free site to share photos

CourtneyB: flickr is cool too

JenW: pictures they take of their class and how they did the Charlotte's Web project

CaitlinO: flickr is a great photo site

JenW: OKAY __ lets backtrack a bit

KellyAS: please

CynthiaRT: Barely sorry a new teacher this year and just getting computer literate after an incredibly difficult intern year through my intern year at MTEC

JenW: The ACTIVITY page of the project

DairaV: I didn't know things like this existed...especially for FREE

JenW: has 21 ideas of what to do with your class

JenW: http://www.technospudprojects.com/Projects/webproject/cwactivities.htm

JenW: and YOU the teacher

JenW: choose how you wish to show off what you and your class learned

KellyAS: what about the secondary level?

JenW sighs -- should have said that first

CourtneyB: wow

JenW: Kelly -- adaptable easily

JoleenF: awesome!

GlyndiA: this is awesome!

CourtneyB: there are a lot of activities

JenW: AND -- LOL -- it gets better

KeyanaJ: I remember you talking about the web last session

EllenA: do tell...

KellyAS: thank you Susan

SusanR: Jen, can you take us step by step thro' the project and Walden Media site please

CourtneyB: yes, thanks a bunch!!

JenW: okay

RachelWa: Wow! I wish we would have received more information on resources during our past years in college

JenW: #1 -- Teachers join the project

CourtneyB: me too

JenW: #2 -- Teachers look at the different activities and decide how they would like to show off what their students do

JenW: either a wiki, powerpoint, podcst, blog, etc

JenW: they can also use the resources at Walden

NormaSp: wow that is great Jen

JenW: by January 15th --

JenW: teachers will send me the link to what they created

JenW: and I will link to their site - or blog -- or wiki -- or podcast lol

JenW: or photoshare

CaitlinO: So everyone would be able to see what you had done

SusanR . o O (and I do have a simple blog you can use to get you up and running in moments if you are not quite comfortable with WIKIS yet)

AndriaP: that is incredible!!!

JenW: yes

CourtneyB: wow

JenW: yes -- I would use blogmesiter.com

JenW: or edublogs.com

KellyAS: good deal

JenW: if you have a mac

HelenK: can you link to your project with an LMS like Moodle?

JenW: use your dot mac account

SusanR: or tastyword.com

JenW: YES -- a moodle is great

JenW: yes -- anything will work

RachelWa: I can't believe all this technology! It is fascinating!

EllenA: what is a moodle

JenW: ---- need to mark that tastyword.com site down

CynthiaRT: I am really completely clueless about what you are all talking about. . .

JenW: A Moodle is a participant area where you can share ideas

JenW: worksheets, etc

DairaV: this is great...and my students look for any reason to use the computer!

HelenK: moodle is a learning management system that lets you create a class and do the work there

CourtneyB: man I'm learning a lot of new stuff tonight!

JenW: the only problem with a moodle is that usually you have to be a member to see what is there

EllenA: sounds great!

CaitlinO: that's pretty cool

JenW: so -- you know what -- a moodle might not work

SusanR: for your records ..look at it later please http://www.tastyword.com/

JenW: you can also create a website

JenW: and there are TONS of sites where you can host for free

JenW: try teacherweb.com

JenW: or google pages

DairaV: ok..these are the sites I need for later

KellyAS: teacherweb is great

JenW: www.teacherweb.com

JenW: or you could create a podcast

SarahAF: I have never been there

JenW: and host it through www.podomatic.com

GlyndiA: I saw that podcast activity.. that is so neat!

JenW: SO -- see -- you have to create something

JenW: BUT -- we are showing you the tools to do so

CaitlinO: I love podcasts, I would definitely want to try that with my students

CourtneyB: me too

RachelWa: I have never heard of podcasts

JenW: AND if you don't want to create something --

JenW: you can just use the resources on my site

JenW: and don't register ----

SarahAF: me either. what are they?

JenW: LOL - and no one would ever know

CourtneyB: thank you- you are awesome Jen!

GlyndiA smiles

GlyndiA: haha

DairaV: LOL

SusanR: can you give us the link, Jen ..to the resources on your site

JenW: Podcast -- you record using your computer or an ipod (or any mp3 player)

JenW: http://www.technospudprojects.com/Projects/webproject/cwactivities.htm

JenW: http://www.technospudprojects.com/Projects/webproject/cwlinks.htm

JenW: that is the page to the links of FREE stuff

JenW: like webhosts, wikis, etc

JenW: OKAY -- but let me tell you something HUGE

EllenA: if its free it's for me!

DairaV: ditto

JenW: gather in -- closely!!!

SusanR: This is exactly what will entice me back to the classroom

NormaSp: same here

KeyanaJ: teacherweb is what I have been looking for

CaitlinO: definitely

JenW: The Walden Media people are trying to break a World's Record

JenW: and are inviting YOU and YOUR class to join

JenW: so -- mark your calendars for DECEMBER 13th

MichelleVT: world record for

JenW: at 9am PST - NOON EST

NormaSp: I am amazed on how much one can do …so many tools for free

SarahAF: I will def have to check out teacher web

FredK . o O (use Tapped IN?)

JenW: and visit -- http://www.charlotteswebbarr.com/

JenW: the Walden people would like to invite you

JenW: to participate in a chat

JenW: it will take about 5 minutes of your time

JenW: http://www.charlotteswebbarr.com/

MichelleVT: WOW, yeah

KellyAS: wow is right

JenW: so please check out that site -- and sign up

AndriaP: sounds good!

CourtneyB: ok

JenW: and if you aren't doing anything at 9am -- or NOON

JoleenF: will do!

KellyAS: ok

GlyndiA: now or on the 13th?

JenW: we are hosting a SKYPEchat

NormaSp: I'm in

MichelleVT: ok, thanks

JenW: on the 13th

DairaV: sounds good

GlyndiA: ok, great

KellyAS: I'll make a note of it

JenW: where we are all going to read on the INTERNET together

JenW: you can email me at

SusanR: You may wish to register here http://www.walden.com/web/teach/guestlogin

JenW: technospud@gmail.com

CaitlinO: wow, it has participants from all over the world, very cool

JenW: if you wish to know more

KeyanaJ: what time is that central

JenW: YES

JenW: hmmm 10 am I believe

KeyanaJ: ok thanks

JenW: anyway -- grins

JenW: that is it in a nutshell

JenW: hmmm -- anything I forgot

SarahAF: I will have to check out all of these sites when I get emailed this transcript. My computer is really delayed right now

HelenK: if you are going to have a skype chat will they also need a skype ID?

AndriaP: thank goodness for transcripts!

JenW: yes -- Helen -- they would need a skype ID

CourtneyB: no kidding!

JenW: OR -- hmmmm

RachelWa: I can't wait to check out all of this and hopefully learn how to use wikis over the Christmas break

JenW: we could perhaps meet here as well??

DairaV: This was good information. My class is going to see the movie on the 15th. I will def pass this infor along to my SBTE for her use.

NormaSp: thx Jen I learned a lot I am ready to explore the web sites

KeyanaJ: I'm really psyched about teacherweb

JenW: however, they could not be heard reading

JenW: anyway -- it is a ONCE IN A LIFETIME

JenW: and it will go down in the Guinness Book of World Records

DairaV: Thank you so much Jen!

EllenA: I second that motion! thank goodness for transcripts! it gets hard to write down important tidbits here and there

KellyAS: I'm looking forward

JenW: which is bragging rights for your kids

GlyndiA: definitely

KeyanaJ: I am glad that the movie is going to supplement the book

KellyAS: they love bragging rights

CaitlinO: they would be so excited

JenW: yes -- the movie is a BIT different

JenW: but nothing too absurd or hard to explain

CourtneyB: I saw a new version of the book at my districts book fair

EllenA: it always is!

JenW: Templeton has quite a chase scene

GlyndiA: the book isn't different... just the cover

DairaV: my students LOVE anything they get to brag on!

JenW: There are talking horses

KellyAS: but that's a great teachable tool...compare contrast

JenW: Robert Redford is one

RachelWa: I also saw the new version of Charlotte's Web at our school's Book Fair

JenW: hang on -- just a moment -- let me grab the movie website

KeyanaJ: yes Kelly

JenW: http://www.charlotteswebmovie.com/site/index.php

KeyanaJ: great idea

JenW: okay -- once you go there

AndriaP: thanks for all of the links!

EllenA: Thank you so much Jen! I really learned a lot and I'm totally stoked about using these new tools

JenW: the guy from FARGO --with big eyes

JenW: that is his name

NormaSp: thx again

JenW: NO -- but they are using some of my ideas

EllenA: man he is the best actor! he is so funny

JenW: AHHH -- the soundtrack just loaded

SusanR: you should be working hand in hand with Walden, Jen

JenW: it's a great site

JenW: if you look to the bottom right

JenW: you can see where they changed the date from the 20th to the 15th

JenW: let's see -- who else is in it

CaitlinO: interesting

SusanR: Sarah McLachlan has a lovely song as well

RachelWa: My page is still loading

CourtneyB: I love her!

JenW: Oprah had it on her show today

JenW: It takes A LONG TIME if you are on dial up

KeyanaJ: really

JenW: anyway -- I think I have rambled

JenW: but there is LOTS to do

GlyndiA: what a neat website!!

JenW: John Cleese, Kathy Bates

JenW: Reba

JenW: Thomas Hayden Church

DairaV: we appreciate the ideas, Jen! Tnx

MichelleVT: thank you so much ladies

JenW: The movie website has games

JenW: and pictures, email cards

JenW: you can listen to parts of the soundtrack

JenW: etc

JenW: Night Norma

NormaSp left the room (signed off).

JenW: and it is INTERNATIONAL as well

CaitlinO: that's nice, it's great to have interactive activities.. keeps the kids more interested

JenW: grins -- my site is only in English

SarahAF: wow it sounds like a neat website

SusanR: I will let you catch your breath, Jen..let the group peruse your activities and resources and see what works for them

KeyanaJ: It's been great, learning from you

SusanR: http://www.technospudprojects.com/Projects/webproject/cwinfo.htm

CourtneyB: I'm going to check out all my new sites now

JenW: or comments

SusanR: We have an enthusiastic audience, Jen!

JoleenF: Thanks again!

RachelWa: I am so glad Dr. Thompson gave us this resource (Tapped In)

GlyndiA: bye guys have a good night... and thank you again Jen

AndriaP: Thanks for everything Jen... I cannot wait to use these resources...

JenW: Glyndi -- my pleasure

ElizabetRC: Thanks Jen, Bye!

RachelWa: Thank you so much for all your information

CarolCN: Jen, Thanks. Do you have directions for doing podcasting with a PC. I'm using and Edublog.

JenW: Yes, Carol

JenW: do you have audacity loaded on your computer???

CarolCN: No. I'm just using Roxio's sound recorder program.

JenW: Hmmm -- I don't know that program

JenW: Carol -- do you know how it records?? Can you save as an mp3

CarolCN: Yes and then I upload the Mp3's to my edublog.

JenW: COOL

CaitlinO: thanks so much for the resources.. it's always nice to discover new ways to teach & involve the students

JenW: Caitlin -- thank you

HuongT left the room (signed off).

SusanR: for ease of use and simplicity you may want to give http://odeo.com/ a try for instant podcasting

CarolCN: Then, how do I create the podcast?

JenW: you would gather your kids around the microphone

JenW: perhaps do a book review

JenW: or perhaps ask questions -- like a reporter

JenW: but let them be the reporter

JenW: like at the FAIR

JenW: or at the first sighting of the web

JenW: or let them write an alternate ending

JenW: and record those

JenW: just some ideas

SusanR: create and put on a Readers Theater

JenW: yes -- that too

DairaV: I like the idea of alternate endings. the students get very creative

JenW: yes -- especially since there is death in this book

JenW: kids like to recreate it

CarolCN: Great ideas. Then how do you generate the RSS feed that people can subscribe to?

AndriaP: that is such a sensitive subject

JenW: Carol -- no rss feed

JenW: just links on the webpage for now

AndriaP: to deal with in a classroom setting

JenW: yes, Andria

JenW: I pull the kids back to me -- when we read that

JenW: I take their books away --

JenW: and I sit down and we read the chapter on the floor

SusanR: Let's give Jen a warm round of applause for taking the time out of her busy schedule to be here to share>

JenW: lots of tears

JenW: from me too

AndriaP: that is a great modification

DavidWe applauds

JenW: yes -- it has worked for me

CarolCN: THANKS!

BJB2 applauds wildly

JenW: thanks so much

JenW blushes

AndriaP: thanks for everything

JenW: and wonders where the hour went

DavidWe: Well done, both Jen and Susan

SusanR applauds and can't wait to see the movie
